INVESTMENT UNIVERSE
The investment universe of the portfolio includes a mix of asset classes and geographical diversification. The portfolio is managed to achieve a balance of income and capital preservation. The asset allocation is designed to provide a steady flow of income while minimizing risk.

RISK PROFILE RANGE
- Low - Medium Risk
- This portfolio has relatively low equity exposure, resulting in relatively low volatility compared to higher risk portfolios.
- Where the asset allocation contained in this MDD reflects offshore exposure, the portfolio is exposed to currency risks.
- The portfolio is exposed to default and interest rate risks.
- Therefore, it is suitable for medium term investment horizons.
- The expected potential long term investment returns may be lower over the medium to long term than higher risk portfolios.

Please note: Asset Allocation is one month lagged.
Risks
Where foreign securities are included in the portfolio there may be additional risks such as potential constraints on liquidity and repatriation of funds, macroeconomic risk, political risk, foreign exchange risk, tax risk, settlement risk as well as potential limitations on the availability of market information. Certain investments - including those involving futures, options, equity swaps, and other derivatives may give rise to substantial risk and might not be suitable for all investors.

Total Expense Ratio (TER)
Please note: A higher TER ratio does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER cannot be regarded as an indication of future TER’s. Transaction Costs are a necessary cost in administering the Fund and impacts Fund returns. It should not be considered in isolation as returns may be impacted by many other factors over time including market returns, the type of Fund, the investment decisions of the investment manager and the TER. The prior year (“PY”) TER and Transaction cost calculations are based upon the portfolio’s direct costs for the financial year ended 30 June 2020, whilst the underlying portfolios’ ratio and cost calculations are based upon their most recent published figures, being 30 June 2020.

Effective Annual Cost: Boutique Collective Investments adopted the ASISA Standard on Effective Annual Cost (“EAC”). The EAC measure allows you to compare charges on your investments as well as their impact on your investment returns prior to investing. For further information regarding the ASISA Standard on Effective Annual Cost and access to the EAC calculator please visit our website at www.bcis.co.za.

#Fixed Administration Fee: R15 excluding VAT. (Applies to all accounts with balances of less than R100 000 at month end)

Fund
Total Expense Ratio (TER): Of the value of the Fund was incurred as expenses relating to the administration of the fund.

Transaction Cost (TC): Of the value of the Fund was incurred as cost relating to the buying and selling of the assets underlying the fund.

Total Investment Charges (TER & TC): Of the value of the Fund was incurred as cost relating to the investment of the Fund.
