### FUND OVERVIEW

The Fund aims to maximise income on your investment consistent with maintaining capital and ensuring its underlying assets can easily be bought or sold in normal market conditions. Money invested in the Fund is not protected or guaranteed. The Fund invests in a broad range of fixed income securities (such as bonds) and MMIs (i.e. debt securities with short term maturities). It may also invest in deposits with credit institutions (e.g. banks). The investment manager will take into account certain environmental social and governance criteria when selecting investments, as detailed in the Fund's prospectus. The Fund is a "Short Term Low Volatility Variable Net Asset Value Money Market Fund" (or LVNAV) as defined by the EU Money Market Funds Regulations. Details of the current credit ratings (if any) attributed to the Fund are available from [www.blackrock.com/cash](http://www.blackrock.com/cash).

Rated by S&P (AAAm), Moody's (Aaa-mf), and Fitch (AAAmf). The Fund is rated by an external rating agency(ies). Such rating is solicited and financed by BlackRock.

**Key Risks:** A Money Market Fund (MMF) is not a guaranteed investment vehicle. An investment in MMFs is different from an investment in deposits; the principal invested in an MMF is capable of fluctuation and the risk of loss of the principal is to be borne by the investor. The MMF does not rely on external support for guaranteeing the liquidity of the MMF or stabilising the NAV per share. Short Term Money Market Funds do not generally experience extreme price variations. Changes in interest rates will impact the Fund. On any day where the net return (i.e. return less costs and expenses) of the Fund is negative an Accumulating Share Class of the fund will see a decrease in the NAV per Share. The Fund seeks to exclude companies engaging in certain activities inconsistent with ESG criteria. Investors should therefore make a personal ethical assessment of the Fund's ESG screening prior to investing in the Fund. Such ESG screening may adversely affect the value of the Fund's investments compared to a fund without such screening.

**Counterparty Risk:** The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.

**Credit Risk:** The issuer of a financial asset held within the Fund may not pay income or repay capital to the Fund when due.

**Capital at Risk:** All financial investments involve an element of risk. Therefore, the value of your investment and the income from it will vary and your initial investment amount cannot be guaranteed.

Sector exposure is calculated by aggregating the percent par of individual securities in the portfolio by security type. BlackRock uses a proprietary process to determine the security type of individual securities, by conducting a thorough analysis of the issuer/ obligor, including but not limited to any support providers or enhancers. The values reported include cash, accrued income, and/or payables/receivables which may result in negative weightings from specific circumstances (including timing differences between trade and settle dates of securities purchased by the funds). Allocations are subject to change

Business Involvement

Business Involvement metrics can help investors gain a more comprehensive view of specific activities in which a fund may be exposed through its investments. Business Involvement metrics are not indicative of a fund’s investment objective, and, unless otherwise stated in fund documentation and included within a fund’s investment objective, do not change a fund’s investment objective or constrain the fund’s investable universe, and there is no indication that an ESG or Impact focused investment strategy or exclusionary screens will be adopted by a fund. For more information regarding a fund’s investment strategy, please see the fund’s prospectus.

Business Involvement

MSCI - Controversial Weapons	0.00%	MSCI - UN Global Compact Violators	0.00%
MSCI - Nuclear Weapons	0.00%	MSCI - Thermal Coal	0.00%
MSCI - Civilian Firearms	0.00%	MSCI - Oil Sands	0.00%
MSCI - Tobacco	0.00%	Business Involvement Coverage	79.57%
Percentage of Fund not covered	20.43%		

BlackRock business involvement exposures as shown above for Thermal Coal and Oil Sands are calculated and reported for companies that generate more than 5% of revenue from thermal coal or oil sands as defined by MSCI ESG Research. For the exposure to companies that generate any revenue from thermal coal or oil sands (at a 0% revenue threshold), as defined by MSCI ESG Research, it is as follows: Thermal Coal 0.00% and for Oil Sands 0.00%. Business Involvement metrics are calculated by BlackRock using data from MSCI ESG Research which provides a profile of each company’s specific business involvement. BlackRock leverages this data to provide a summed up view across holdings and translates it to a fund’s market value exposure to the listed Business Involvement areas above. Business Involvement metrics are designed only to identify companies where MSCI has conducted research and identified as having involvement in the covered activity. As a result, it is possible there is additional involvement in these covered activities where MSCI does not have coverage. This information should not be used to produce comprehensive lists of companies without involvement. Business Involvement metrics are only displayed if at least 1% of the fund’s gross weight includes securities covered by MSCI ESG Research.

**MSCI - Oil Sands:** Percentage sum of issuers within the fund that have been identified by MSCI ESG Research as earning >5% of total revenue from oil sands extraction.

**Weighted Average Maturity:** The average maturity of a Fund is the average amount of time until the organizations that issued the debt securities in the Fund's portfolio must pay off the principal amount of the debt. "Dollar-weighted" means the larger the dollar value of a debt security in the Fund, the more weight it gets in calculating this average. To calculate the dollar-weighted average maturity, the Fund may treat a variable or floating rate security as having a maturity equal to the time remaining to the security's next interest rate reset date rather than the security's actual maturity.

**Weekly Maturing Asset:** The average of the weekly determinations of the difference between the total assets of the Fund attributable to an Allocated Sleeve and the total liabilities of the Fund attributable to such Allocated Sleeve, determined at the close of the last business day of each week.

**Weighted Average Life:** Measurement of a fund's sensitivity to a deteriorating credit environment; potential credit spread changes or tightening liquidity conditions. The WAL calculation is based on a security's stated final maturity date or, when relevant, the date of the demand feature when the fund may receive payment of principal and interest.

**1-Day Yield :** It is the distribution factor for the prior business day multiplied by 365.

**7-Day Yield:** It is the accumulated distribution factor for the prior seven days multiplied by 365/7.

**Daily Maturing Asset:** Are presented as a percentage of the fund's total assets on the date stated

**Business Involvement Coverage:** Percentage of a fund's holdings that have MSCI business involvement data.

**Percentage of Fund Not Covered:** Percentage of fund's holdings that do not have business involvement data.
