

Investment Objective

The **Red Oak BCI Balanced Fund** is a managed portfolio with the objective to offer investors a moderate to high long-term total return. The portfolio will be managed in compliance with prudential investment guidelines for retirement funds in South Africa to the extent allowed for by the Act. The portfolio's net equity exposure will range between 0% and 75% of the portfolio's net asset value.

Investment Universe

In order to achieve its objective, the investments normally to be included in the portfolio may comprise a combination of assets in liquid form, money market instruments, interest-bearing securities, bonds, debentures, corporate debt, equity securities, property securities, preference shares, convertible equities and non-equity securities. The manager may invest in participatory interests or any other form of participation in portfolios of collective investment schemes or other similar collective investment schemes as the Act may allow from time to time, and which are consistent with the portfolio's investment policy. Where the aforementioned schemes are operated in territories other than South Africa, participatory interests or any other form of participation in portfolios of these schemes will be included in the portfolio only where the regulatory environment is, to the satisfaction of the manager and the trustee, of sufficient standard to provide investor protection at least equivalent to that in South Africa. The portfolio may from time to time invest in listed and unlisted financial instruments. The manager may also include forward currency, interest rate and exchange rate swap transactions for efficient portfolio management purposes.

Performance (%)

	1 Year	2 Years	3 Years	5 Years	Since Inception (Annualised)
Red Oak BCI Balanced Fund (A)	11,76	9,17	11,13	10,28	6,94
Fund Benchmark	15,15	12,70	13,35	11,93	7,69

Performance calculated using Morningstar. Peer Group Category is shown for illustrative purposes. Period greater than 1 year are annualised. Annualised return is the weighted average compound growth rate over the period measured.

Medium High Risk Disclaimer

This portfolio holds more equity exposure than a medium-risk portfolio but less than a high-risk portfolio. In turn the expected volatility is higher than a medium-risk portfolio, but less than a high-risk portfolio. The probability of losses is higher than that of a medium-risk portfolio, but less than a high-risk portfolio and the expected potential long term investment returns could therefore be higher than a medium-risk portfolio. Where the asset allocation contained in this publication reflects offshore exposure, the portfolio is exposed to currency risks. The portfolio is exposed to equity as well as default and interest rate risks. Therefore, it is suitable for medium to long term investment horizons.

Effective Exposure

Effective Exposure assets are lagged by 1 month. (May not add up to 100% due to rounding)

Annual Management Fee Disclosure

The Annual Management fee of 1.15% (Incl. VAT) is made up of:

Investment Manager	0.51%
Direct Investment Manager Fees	0.13%
Administration Fees	0.17%
Investment Consulting Fees	0.23%
Rebate	0.10%

In the instance that the fund is not fully vested with Direct Investment Managers, the balance of the Annual Management fee, if any, may be rebated back into the Red Oak Balanced Fund.

Total Expense Ratio ("TER")

Please note: A higher TER ratio does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER cannot be regarded as an indication of future TER's. Transaction costs are a necessary cost in administering the Fund and impacts Fund returns. It should not be considered in isolation as returns may be impacted by many other factors over time, including market returns, the type of Fund, the investment decisions of the investment manager and the TER. The prior year ("PY") TER and transaction cost calculations are based upon the portfolio's direct costs for the financial year ended 31 December 2024, whilst the underlying portfolios' ratio and cost calculations are based upon their most recent published figures, being 31 March 2025.

Effective Annual Cost ("EAC")

Boutique Collective Investments (BCI) adopted the ASISA Standard on Effective Annual Cost ("EAC"). The EAC measure allows you to compare charges on your investments as well as their impact on your investment returns prior to investing. BCI calculates the EAC as per the ASISA standard for a period of 3 years up till the most recent TER reporting period. For further information regarding the ASISA Standard on Effective Annual Cost and access to the EAC calculator please visit our website at www.bcis.co.za.

#Monthly Fixed Administration Fee: R15 excluding VAT which will apply to all direct investor accounts with balances of less than R100 000 at month end, unless an investor transacts online, in which case no such fee will be levied.

FAIS Conflict of Interest Disclosure

Please note that your financial advisor may be a related party to the co-naming partner and/or BCI. It is your financial advisor's responsibility to disclose all fees he/she receives from any related party. The portfolio's TER includes all fees paid by portfolio to BCI, the trustees, the auditors, banks, the co-naming partner, underlying portfolios, and any other investment consultants/managers as well as distribution fees and LISP rebates, if applicable. The portfolio's performance numbers are calculated net of the TER expenses. The investment manager earns a portion of the service charge and performance fees where applicable. In some instance portfolios invest in other portfolios which forms part of the BCI Schemes. These investments will be detailed in this document, as applicable.

BCI General Disclaimer

Boutique Collective Investments (RF) (Pty) Ltd ("BCI") Ltd is part of the Apex Group Ltd. BCI is a registered Manager of the Boutique Collective Investment Scheme, approved in terms of the Collective Investments Schemes Control Act, No 45 of 2002 and is a full member of the Association for Savings and Investment SA. Collective Investment Schemes in securities are generally medium to long term investments. The value of participatory interests may go up or down and past performance is not necessarily an indication of future performance. The Manager does not guarantee the capital or the return of a portfolio. Collective Investments are traded at ruling prices and can engage in borrowing and scrip lending. A schedule of fees, charges and maximum commissions is available on request. BCI reserves the right to close the portfolio to new investors and reopen certain portfolios from time to time in order to manage them more efficiently. Additional information, including application forms, annual or quarterly reports can be obtained from BCI, free of charge. Performance figures quoted for the portfolio are from Morningstar, as at the date of this minimum disclosure document for a lump sum investment, using NAV-NAV with income reinvested and do not take any upfront manager's charge into account. Income distributions are declared on the ex-dividend date. Actual investment performance will differ based on the initial fees charge applicable, the actual investment date, the date of reinvestment and dividend withholding tax. Investments in foreign securities may include additional risks such as potential constraints on liquidity and repatriation of funds, macroeconomic risk, political risk, foreign exchange risk, tax risk, settlement risk as well as potential limitations on the availability of market information. Certain investments - including those involving futures, options, equity swaps, and other derivatives may give rise to substantial risk and might not be suitable for all investors. Boutique Collective Investments (RF) Pty Ltd retains full legal responsibility for the third party named portfolio. Although reasonable steps have been taken to ensure the validity and accuracy of the information in this document, BCI does not accept any responsibility for any claim, damages, loss or expense, however it arises, out of or in connection with the information in this document, whether by a client, investor or intermediary. This document should not be seen as an offer to purchase any specific product and is not to be construed as advice or guidance in any form whatsoever. Investors are encouraged to obtain independent professional investment and taxation advice before investing with or in any of BCI/the Manager's products. Access the BCI Privacy Policy and the BCI Terms and Conditions on the BCI website (www.bcis.co.za).

Quarterly Commentary for the period ending March 2025

Global equity markets plunged after US President Donald Trump's tariff announcement on Liberation Day, with many countries vowing to introduce retaliatory tariffs. Market volatility was further exacerbated by on-again/off-again tariff announcements. The trade war sparked fears of a US recession amid slowing growth, weak consumer sentiment, and sticky inflation. The rapid reordering of global trade dynamics caused tremendous confusion and unease among investors, weighing on global equity markets. Optimism for European equity markets were significantly evident largely because of Germany's fiscal spending plan and the region's efforts to lowering inflation to the target range.

Developed market (DM) equities recorded a modest gain in April, with the MSCI World Index ending positively at 0.89% month-on-month (m/m) in dollar terms, pushing them into positive territory. The month was characterised by significant market volatility, largely driven by geopolitical events, and in particular US tariffs. Emerging Market (EM) equities also ended April in positive territory at 1.34% m/m in dollars, partially attributed to US dollar weakness. Both global property and global bonds were in positive territory at 0.99% m/m and 2.94% m/m dollars. The FTSE Index lost -0.25% m/m in pounds with the decline continuing from the March figure of -2.25% m/m. The Euro Stoxx 50 Index ended in negative territory for the month at -1.80% m/m and the S&P 500 detracted for the month at -0.68% m/m. The Dow Jones Index was the biggest detractor for the month, ending in negative territory at -3.08% m/m in dollar terms. However, Japan's benchmark Nikkei clawed back some of its March losses, ending April in positive territory at 1.20% m/m in yen terms.

SA equity markets ended the month strongly in positive territory with the FTSE/JSE All Share Index up 4.34% m/m in rand terms, despite earlier declines in response to US tariffs. The JSE was further boosted by the easing of domestic political tensions as Finance Minister Enoch Godongwana scrapped the planned VAT increase of 0.5%. Property went from an underperformer in March to the biggest gainer in April at 7.58% m/m. Industrials and Resources both ended the month in positive territory at 2.44% m/m and 2.06% m/m respectively. Financials and Cash were both in positive territory at 4.61% m/m and 0.61% m/m respectively. The bond market was positive for short- and medium-term bonds in April but negative for long-term bonds, with the FTSE/JSE All Bond Index ending the month positively at 0.76% m/m. Bonds of 1-3 years were positive at 1.06% m/m along with bonds of 3-7 years at 1.78% m/m. Bonds of 7-12 were positive at 0.77% m/m, but bonds of 12 years and above ended in negative territory at -0.28% m/m. The rand was one of the few currencies that weakened against the US dollar in April at -1.15% m/m, largely attributed to uncertainty over the stability of the GNU and strained relation with the US. The rand also weakened against the euro and pound at -6.07% m/m and -4.48% m/m respectively.
