Fund Objective

This is an actively managed, multi asset income fund which aims to provide a high level of income whilst maximising returns and diversification across multiple income-yielding asset classes. This is an SA only fund which may not hold any offshore assets.

Fund Strategy

Returns are sought through tactical asset allocation and high conviction bets across the income-yielding universe, including corporate and government bonds, money market instruments, preference shares and listed property. Opportunities are taken across the entire duration and credit spectrum. The fund is mandated to invest in unlisted financial instruments (derivatives) for efficient portfolio management. The investment manager will also be allowed to invest in financial instruments (derivatives) as allowed by the Act from time to time in order to achieve its investment objective.

Tax Free Unit Trust

This fund qualifies as a tax free investment according to section 12T of the Income Tax Act, with effect from 1 March 2015. South African individuals qualify for the associated tax benefits namely no tax on dividends, income or capital gains whilst still enjoying all the benefits of a unit trust. Note contributions to tax free investments are limited to R36 000 per tax year, with a lifetime limit of R500 000. Amounts invested in excess of these permissible thresholds are taxable.

Fees (Incl. VAT)

Advice initial fee (max.): 1.15
Manager initial fee: N/A
Advice annual fee (max.): 1.15
Manager annual fee: 0.92
Total Expense Ratio (TER): 0.93

Advice fee | Any advice fee is negotiable between the client and their financial advisor. An annual advice fee negotiated is paid via a repurchase of units from the investor.

Total Expense Ratio (TER) | PERIOD: 01 July 2019 to 30 June 2022
Total Expense Ratio (TER) | 0.93% of the value of the Financial Product was incurred as expenses relating to the administration of the Financial Product. A higher TER does not necessarily imply a poor result, nor does a low TER imply a good return. The current TER may not necessarily be an accurate indication of future TER’s.

Transaction Cost (TC) 0.01% of the value of the Financial Product was incurred as costs relating to the buying and selling of the assets underlying the Financial Product. Transaction Costs are a necessary cost in administering the Financial Product and impacts Financial Product returns. It should not be considered in isolation as returns may be impacted by many other factors over time.

This monthly Minimum Disclosure Document should be viewed in conjunction with the Glossary of Terms sheet which is available on the website.

Risk Profile (Conservative)

This portfolio aims to ensure stable income flows and capital preservation is of primary importance. The portfolio invests in a combination of low-risk asset classes, but exposure to equities is limited to protect against volatility and risk of capital losses. It aims to provide a high level of income, while maximising returns above cash. Capital preservation is achieved through diversification across a variety of high yielding assets.

Portfolio Manager(s)

Melville du Plessis

Additional Information

All reasonable steps have been taken to ensure the information on this MDD is accurate. The information to follow does not constitute financial advice as contemplated in terms of the Financial Advisory and Intermediary Services Act. Independent professional financial advice should always be sought before making an investment decision.

The Sanlam Group is a full member of the Association for Savings and Investment SA. Sanlam Collective Investments (RF) (Pty) Ltd is a registered and approved Manager in Collective Investment Schemes in Securities. Collective investment schemes are generally medium- to long-term investments. Past performance is not necessarily a guide to future performance, and that the value of investments / units / unit trusts may go down as well as up. A schedule of fees and charges and maximum commissions is available from the Manager on request. Additional information of the proposed investment, including brochures, application forms and annual or quarterly reports, can be obtained from the Manager, free of charge Collective investments are traded at ruling prices and can engage in borrowing and scrip lending. The Manager does not provide any guarantee either with respect to the capital or the return of a portfolio. Collective investments are calculated on a net asset value basis, which is the total market value of all assets in the portfolio including any income accruals and less any deductible expenses such as audit fees, brokerage and service fees. Forward pricing is used. Performance is based on NAV to NAV calculations with income reinvestments done on the ex-div date. Performance is calculated for the portfolio and the individual investor performance may differ as a result of initial fees, actual investment date, date of reinvestment and dividend withholding tax. The Manager has the right to close the portfolio to new investors in order to manage it more efficiently in accordance with its mandate. The performance of the portfolio depends on the underlying assets and variable market factors. Lump sum investment performances are quoted. The portfolio may invest in other unit trust portfolios which levy their own fees, and may result is a higher fee structure for our portfolio. All the portfolio options presented are approved collective investment schemes in terms of Collective Investment Schemes Control Act No 45 of 2002 ("CISCA"). The fund may from time to time invest in foreign countries and therefore it may have risks regarding liquidity, the repatriation of funds, political and macroeconomic situations, foreign exchange, tax, settlement, and the availability of information. The Manager has the right to close any portfolios to new investors to manage them more efficiently in accordance with their mandates.

Sources of Performance and Risk Data: Morningstar Direct, INET BFA and Bloomberg.

The risk free asset assumed for the calculation of Sharpe ratios: STEFI Composite Index.

The highest and lowest 12-month returns are based on a 12-month rolling period over 10 years or since inception where the performance history does not exist for 10 years.
