

INVESTMENT OBJECTIVE

The objective is to deliver a less volatile enhanced equity capital growth outcome over the long term.

INVESTMENT POLICY

The Select BCI Enhanced Equity Fund aims to combine the investment outcomes of fundamental equity and smartbeta equity management strategies and thereby delivering a less volatile enhanced equity capital growth outcome over the long term. The portfolio will invest primarily in a diversified basket of equities. The fundamental equity component will focus on maximizing total returns for the client. The component will be actively invested in equities with capital appreciation and income potential with the goal to outperform the benchmark over the medium to long term. The smartbeta component will follow a multi-factor investment process applying the valuation, quality, momentum, volatility and investment factors to outperform the benchmark over the medium to long term. The portfolio's aggregate equity exposure will be a minimum of 80% of the portfolio's net asset value. The portfolio's investment universe consists of equity securities, preference shares, property shares and property related securities listed on exchanges, interest bearing instruments as well as assets in liquid form. The portfolio may also invest in participatory interests and other forms of participation in portfolios of collective investment schemes. The portfolio may from time to time invest in listed and unlisted financial instruments.
